* RF, AF & QF Series rack rail is the required choice for use in our Steel & Aluminum Rack Kits. Rack Kit Rail part numbers reflect the total number of component mounting rack units available after rails have been fastened into our cast connecting corners (1RU or 1-3/4" recedes into both upper & lower cast connecting corner). Rack kit rail actual length will always be 2 RU (3-1/2") longer than the part number indicates.

MULTI-APPLICATION STEEL RACK RAIL

(intended for multi-application uses such as architectural built-in racks, tradeshow exhibits, rack cases & consoles - rail sets are priced & sold strictly in sets of 2 rails)
